

SET UP INSTRUCTIONS

HOW TO INSTALL APP ONTO FIRESTICK

1. Once you have set up your Firestick with the **Downloader** app, this will enable you to download our app onto your Firestick.
2. Open Downloader app and type the link we give you into the **Downloader** box where it says "Enter a URL or Search Term".

Enter short code: **819825** or **https://aftv.news/819825**

This will install the app. Once app is installed it will ask you to choose your **Device Option**, choose **TV**.

Then it will ask for your username and password, once you have paid for your chosen subscription, your password will be generated and you will receive both of these. Your username will generally be your email address.

HOW TO INSTALL APP ONTO SMART TV/ IPHONE/IPAD

1. Open “Apps” on your Smart TV or “App Store” on your Iphone/Ipad, then use Search option to find and install the free app shown below:

IPTV Smarters Lite

Follow the instructions given below:

You will use the login details provided by us in this form.

Any name: **Me-DiaTube**

Username:

Password:

Portal URL: **https://thebestiptv.xyz**

This will install the app. Once app is installed it will ask you to choose your **Device Option**, choose either **TV** or **Mobile**, whichever is applicable.

Your username will generally be your email address. Once you have paid for your chosen subscription, your password will be generated and you will receive this.

The screenshot displays the IPTV Smarters Player app interface. On the left, there is a logo for 'IPTV SMARTERS PLAYER' featuring a stylized TV set. Below the logo is a 'List Users' button with a user icon. On the right, a form titled 'Enter Your Login Details' is shown. The form contains four input fields: 'Any Name', 'Username', 'Password', and a URL field with the placeholder 'http://url_here.com:port'. At the bottom of the form is a blue 'ADD USER' button.

HOW TO INSTALL APP ONTO ANDROID PHONE/TABLET

1. Go to **Settings** and then to **Apps**, tap **Menu icon** (3 dots, top right), tap **Special Access**, tap **Install unknown apps**.
